

The Handsome Ilinooy Heater

Our grandmothers used to tell us "Handsome is as handsome does," which is true also of the ILINOY HEATER. It is a handsome stove and it does handsomely. It's name is also HANDSOME.

During the week beginning October 16 a demonstration of the work and usefulness of that well known and universally popular stove, the MAJESTIC RANGE, will be held at our store. We invite everybody, but especially we want the ladies of Jasper and community to come in during that week and see what this range can do.

Don't forget the St. Louis Buggies, the 1-minute Washers with power attachment, the De Lavel Cream Separators and the Royal American Fence Wire.

MAINE "WET" BY 20 VOTES.

The Official Canvass Showed the Election Extremely Close.

Augusta, Me., Sept. 16.—Complete official returns from the special election of last Monday when Maine voted on the question of the repeal of the constitutional prohibitory amendment as canvassed by the governor and council last night, showed a majority of twenty votes in favor of repeal. Various discrepancies were found in the official returns as compared with the tabulations compiled by the secretary of state's office. The latter indicated a majority for repeal of 136.—Carthage Press.

The News has just printed catalogs and sale bills for the above named gentlemen announcing their annual sale of high grade and pedigreed Poland China hogs, to be held Thursday, October 3, at the red brick livery barn in Jasper. Stalter & Son are too well known among breeders of fine hogs to necessitate more than the plain statements as above recorded. The standards they have set and the grade of stock they handle will afford ample opportunity to those who desire to add new blood to their herds or to raise the grade of their stock to do so at this sale. See their ad in this issue.
